The Wet Spots

While anyone can let out a stream of four-letter words and be labelled "controversial", the Wet Spots sing about sex "without using any words that aren't allowed on CBC Radio", as noted on the duo's Web site (www.wetspotsmusic.com/). With frisky lounge tunes like "Threeway

Rendezvous" and "Do You Take It (in the Ass)", Cass King and John Woods have cornered the market on clever, classy tunes about kink.
